

We were discussing this issue in class and actually found that the 6002 does have a drum heater that can be activated by plugging it in.  
See manual...

Going forward All drum heaters need to be plugged in on next service call.

\*\*This should correct the blurry drum issue.

Please do so on the next call you have on these models.

rfg054095.pdf

SP5812-001	Service Telephone Number Settings	This is the number displayed when a service call is issued.
SP5841-001	Supply Name Setting - Toner Name Setting: Black	This name appears when the user presses the inquiry on the User Tools screen.
SP5853	Stamp Data Download	Do SP 5853 to copy stamp data to the hard disk, then turn the power off/on.

**Connecting the Drum Heater Connector and the Tray Heater Connector:**

1. Open the rear upper cover and the rear lower cover.

2. Connect the tray heater connector to the CN104 connector [A].
3. Connect the drum heater connector to the CN103 connector [B].
