

How to install the PCL driver

Published 08/25/2009 03:12 AM | Updated 02/06/2013 12:14 AM | Answer ID 110909

How do I install the PCL driver?

Click [Show/Hide All](#) to display or hide all additional information included in this answer.

PCL6 driver

Printer driver for B/W printing and Color printing in Windows. It supports HP PCL XL commands and is optimized for the Windows GDI. High performance can be expected.

PCL5 driver

PCL5e for black-and-white devices; PCL5c for color devices. Although this driver has mainly been superseded by PCL6, these drivers are provided for backward compatibility.

Information:

- If your operating system is Windows 2000, XP, NT 4.0, Vista, 7, and 8 you will need to log on as Administrator or Power User to install printer drivers.
- Please contact your Network Administrator if you want to install Printer Drivers for a networked printer.
- Make sure that you close all other applications before starting the installation.
- If you are updating to the latest version of the printer driver, it is important to uninstall the previous version first - always restart your computer after uninstalling drivers.

To install a driver for your device, follow these steps:

1. First, download the driver you want to install. You can download the latest drivers and software from the Ricoh Downloads page. Make sure that you download the correct version for your operating system. Expand the file if it is compressed, and save it in a temporary directory to access later.

2. Open the printer list.

Note:

As of April 1st, 2008 support for Windows 98/ME has been discontinued.

As of October 1st, 2011 support for Windows 2000 has been discontinued.

[\[+\] Windows 98/ME/2000](#)

[\[+\] Windows XP](#)

[\[+\] Windows Vista](#)

[\[+\] Windows 7](#)

[\[+\] Windows 8](#)

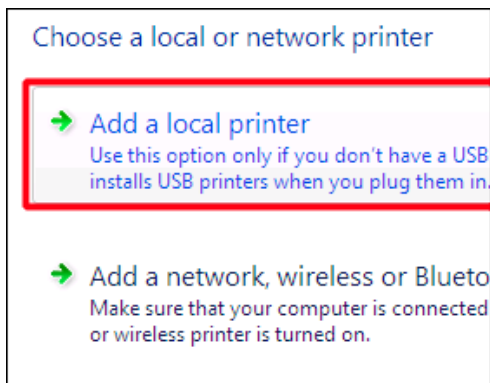

3. Click **[Add a printer]** (**[Add Printer]** on older versions of Windows) to activate the **[Add a printer]** Wizard.

(Note: The procedure from step 3 is explained using Windows 7 as an example.)

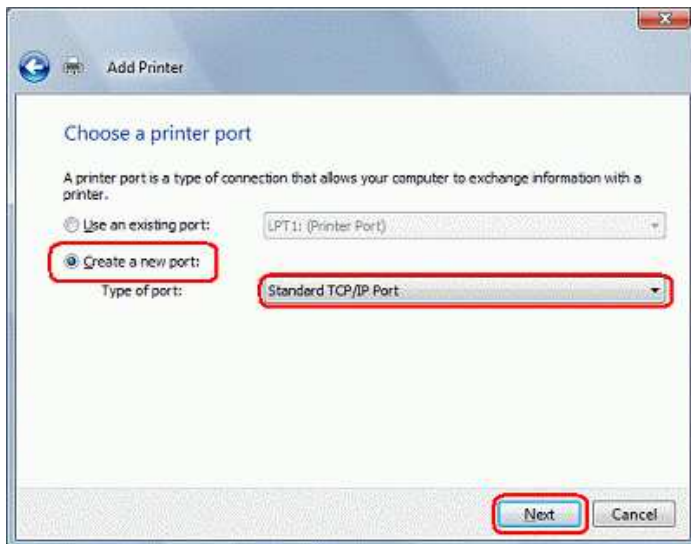

[↑ To Top](#)

4. Click **[Add a local printer]**.

[↑ To Top](#)

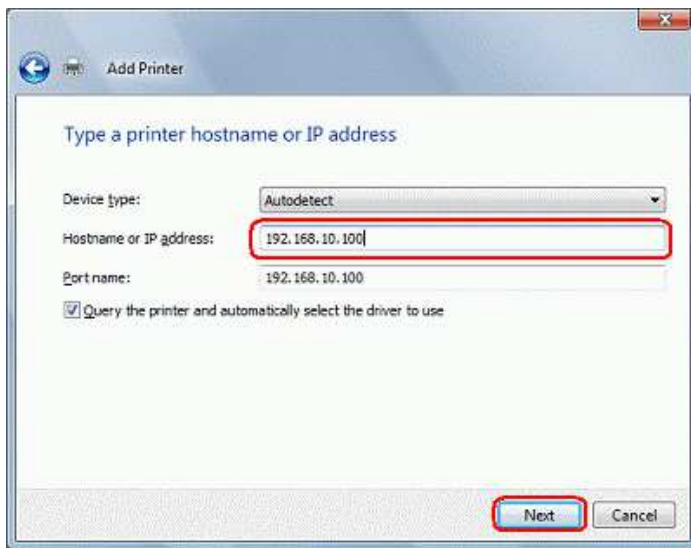

5. Click **[Create a new port]**, click **[Standard TCP/IP Port]** in the "Type of port" list, and then click **[Next]**.

[↑ To Top](#)

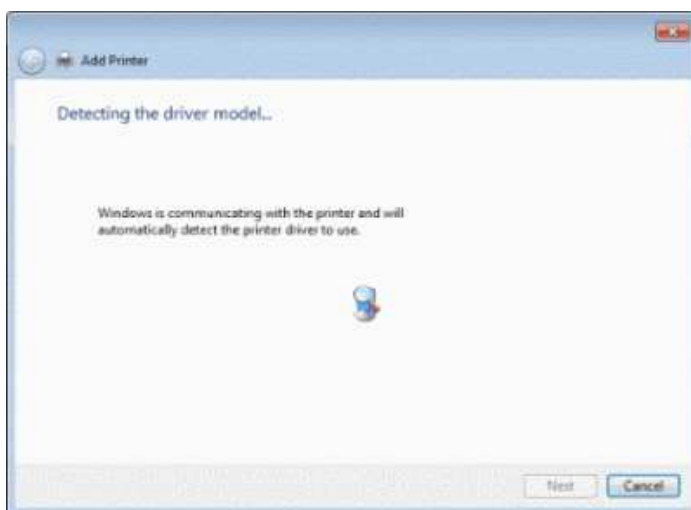

6. Type your device's IP address in the "Hostname or IP address" box, and then click **[Next]**.

Here, "192.168.10.100" has been entered as an example.

[↑ To Top](#)

7. Detecting TCP/IP port screen and Detecting the driver model screen are displayed.

[↑ To Top](#)

8. Once the TCP/IP port is found, the printer driver install screen appears.

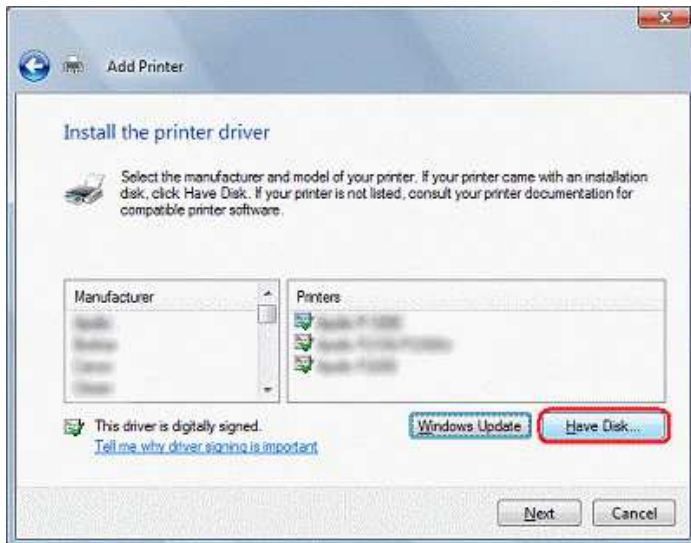

If the TCP/IP port cannot be found

If the TCP/IP port cannot be found, a screen requesting further port information will appear. Check that your device is

switched on and the device's IP address is correct.

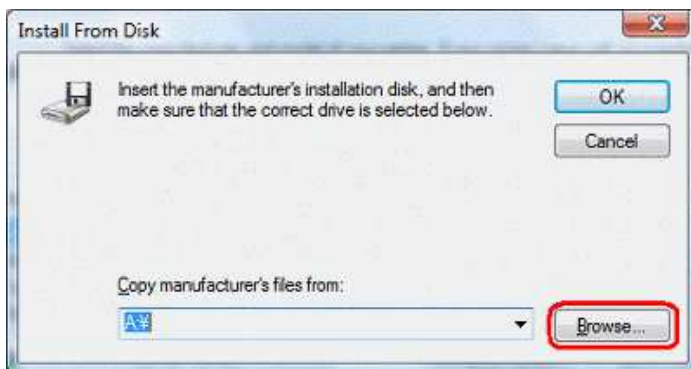

9. On the printer driver install screen, click **[Have Disk]**.

Note: To use a pre-installed Windows Vista driver, click **[Ricoh]** in the **"Manufacturers"** box, click the desired driver in the **"Printers"** box, and move on to step 14.

[↑ To Top](#)

10. Click **[Browse]**.

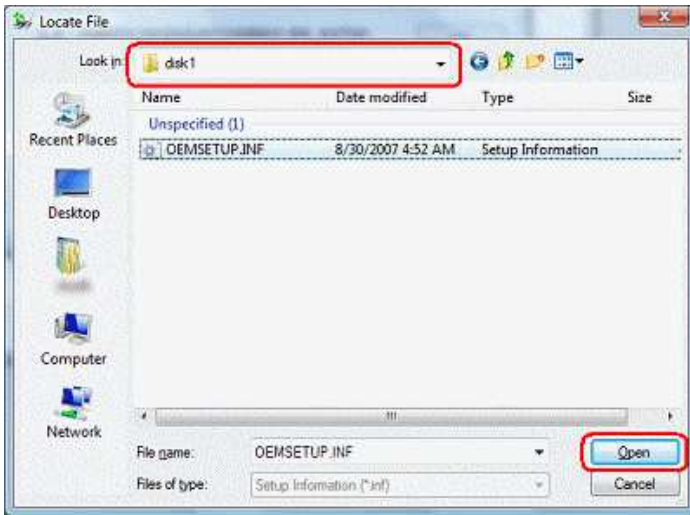

[↑ To Top](#)

11. Specify the driver folder you saved earlier in step 1.

Here, we are using a folder "r22770en" as an example.

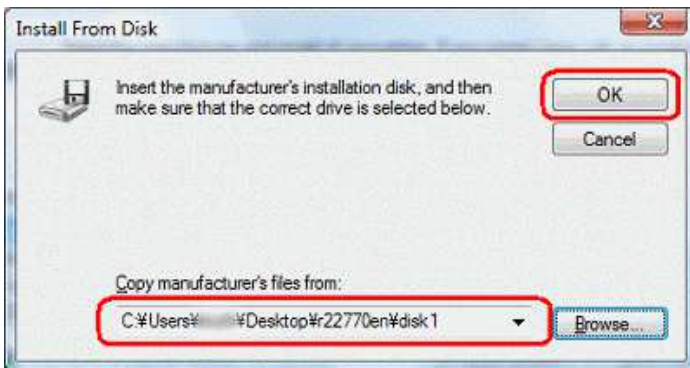

Confirm that "disk1" is displayed in the "Look in" box and the ".INF" file is selected in file name, and then click **[Open]**.

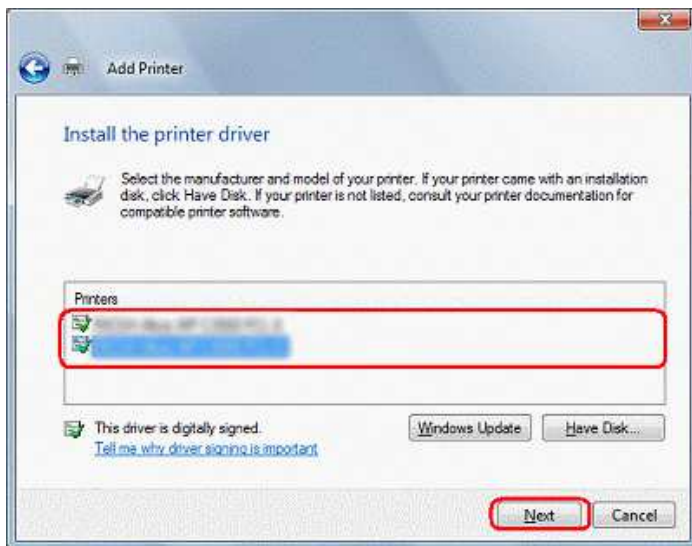

[↑ To Top](#)

- 12. Confirm that the folder located in the above step is shown in the "Copy manufacturer's files from" box, and then click **[OK]**.

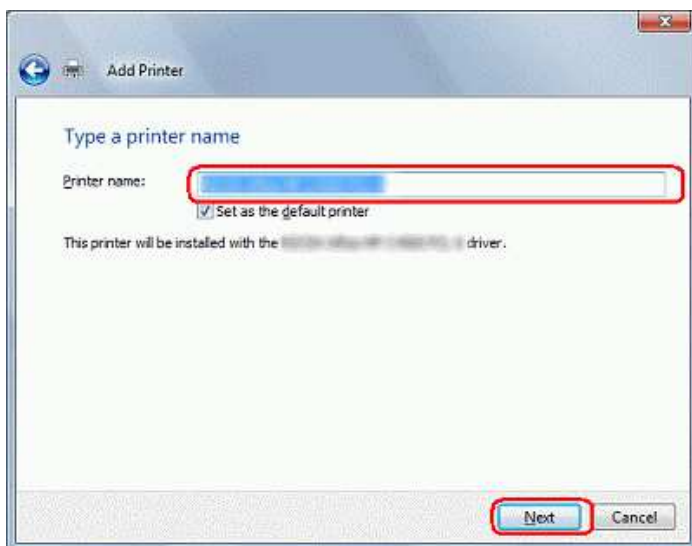

[↑ To Top](#)

- 13. Click on your device in the "Printers" box, and then click **[Next]**.

[↑ To Top](#)

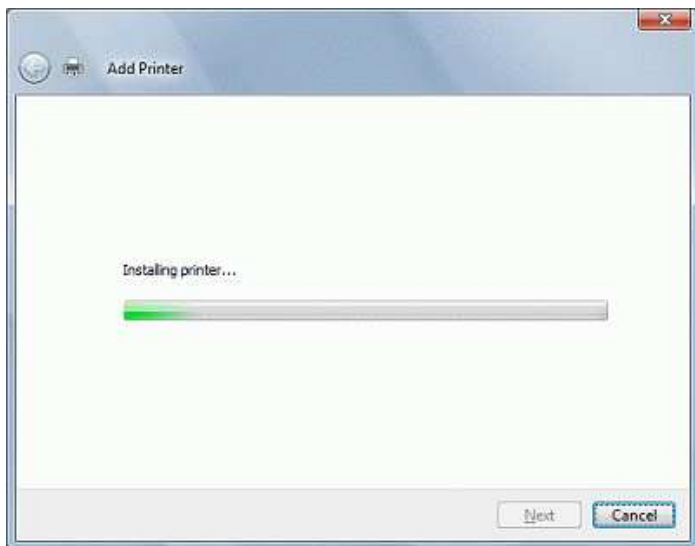

14. Enter a printer name, and click **[Set as the default printer]** if you want the device to be your default printer once it is installed. Then, click **[Next]**.

[↑ To Top](#)

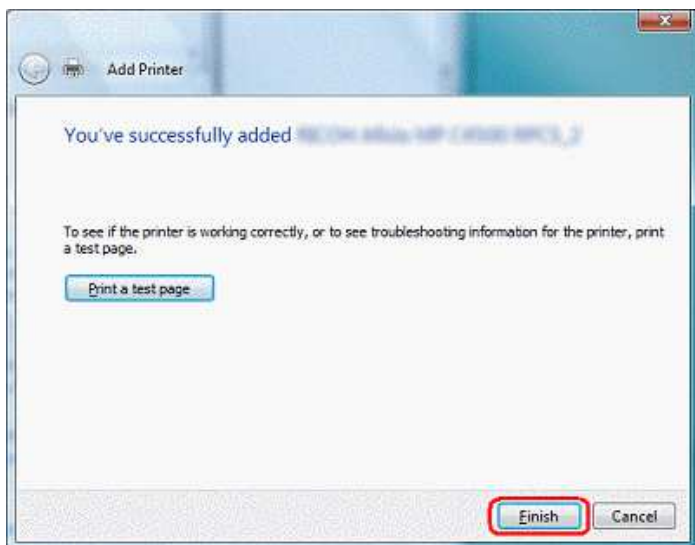

15. The driver file is installed.

If a user account access rights warning appears during the installation, click **[Continue]**.
If a Windows security warning appears during the installation, click **[Install this software]**.

[↑ To Top](#)

- 16. Click **[Print a test page]** if you want to print a test page, and then click **[Finish]** once you are done.

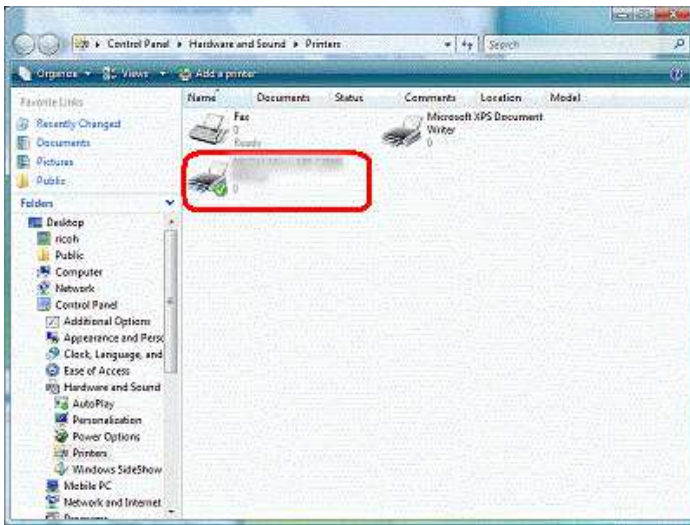

Note: If you click **[Print a test page]**, the following window will be displayed.

[↑ To Top](#)

- 17. Confirm that a new printer icon has been added to your Printers list.
